

# MAYVUE MOBILE

THE NEXT GENERATION OF MOBILE BRIDGE INSPECTION

# INTRODUCTION

**Ryan "Rodey" Rodemoyer**  
Software Engineering Manager  
[ryan.rodemoyer@mayvue.com](mailto:ryan.rodemoyer@mayvue.com)

A night-time photograph of a city street. The road is filled with light trails from moving vehicles, creating a sense of motion. In the background, a prominent domed building, likely a state capitol, is illuminated. Other city buildings and trees are visible, some with lights on. The overall scene is a blend of urban architecture and natural elements, captured in a long-exposure shot.

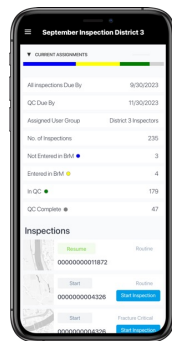

**THE NEXT GENERATION OF MOBILE BRIDGE INSPECTION HAS ARRIVED.**

**THE NEXT GENERATION OF MOBILE BRIDGE INSPECTION HAS ARRIVED.  
BUT FIRST, A RETROSPECTIVE.**

## Mayvue Multimedia

Born from BETA testing feedback provided by  
Alabama DOT  
Capturing Multimedia quickly and effectively was a  
pain point  
Works with BrM 6.x  
Progressive Web App – No App Stores required  
Created as a “fun” project by members of Mayvue’s  
development team  
Available for free  
Still being used in Production today

# SNBI Collector Module 1

## SNBI Collector Module 1

There's an immediate need to collect SNBI data today

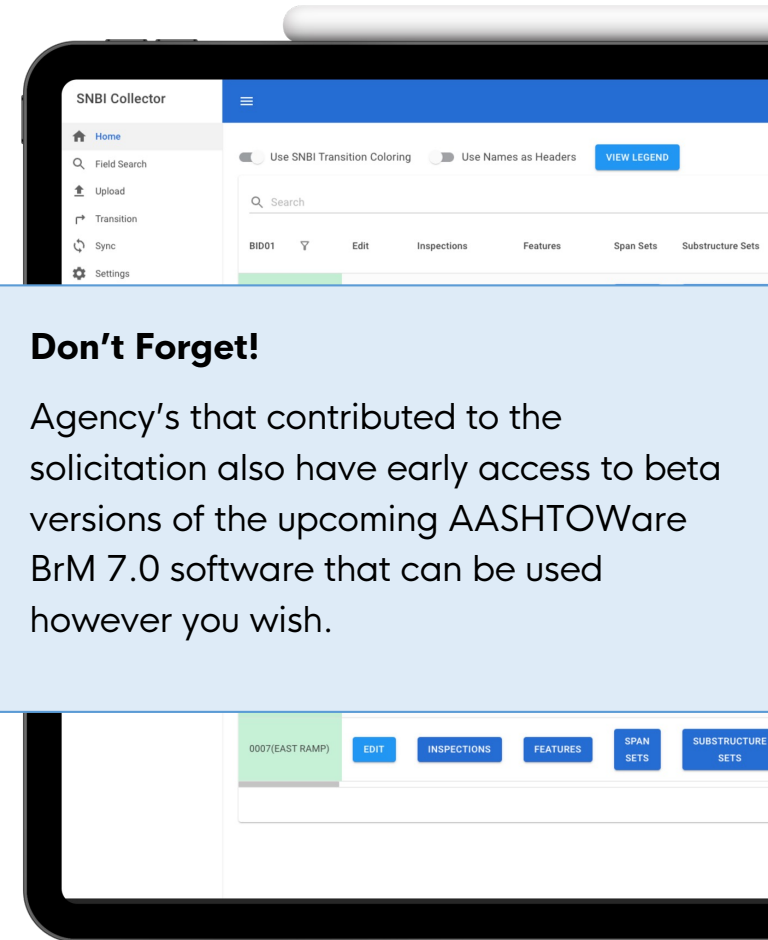

There are other options available (paper & pencil, Excel, MS Access, etc.), however, this is the only option that will provide a seamless transition of the data into AASHTOWare BrM 7.0  
Your data will be in BrM 7.0 waiting for you –  
Handled completely by Mayvue

## SNBI Collector Module 1

There's an immediate need to collect SNBI data today

There are other options available (paper & pencil, Excel, MS Access, etc.), however, this is the only option that will provide a seamless transition of the data into AASHTOWare BrM 7.0  
Your data will be in BrM 7.0 waiting for you –  
Handled completely by Mayvue

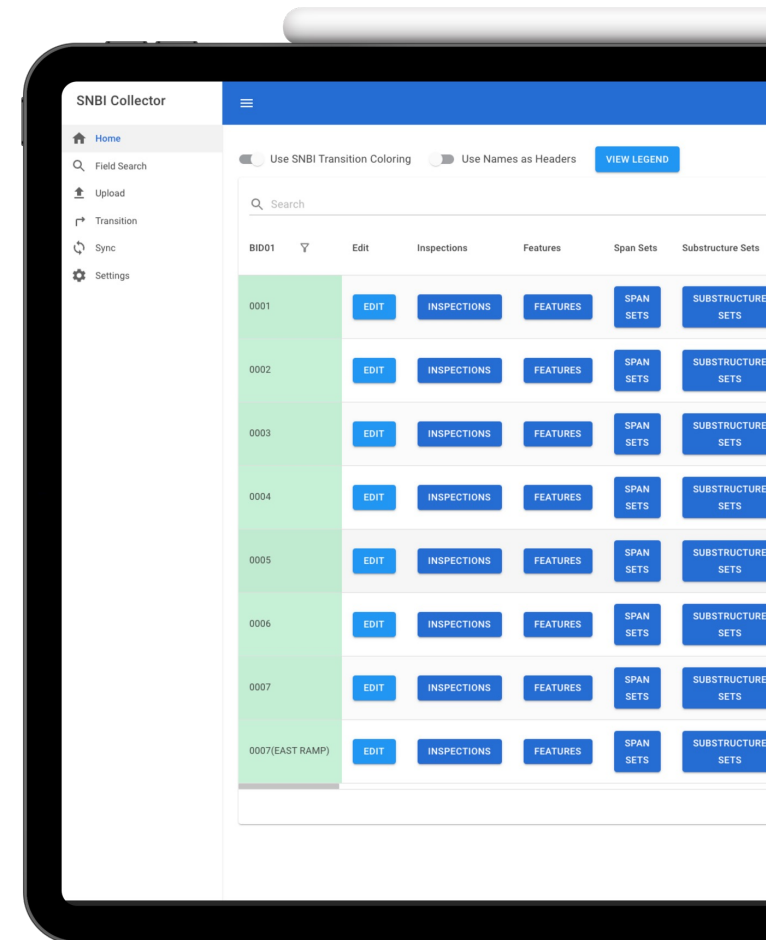

## SNBI Collector Module 1

Why a brand-new application?

BrM 7.0 is fundamentally different – It is the single greatest change in user experience in the history of the platform

Advancements in mobile technology allow an improved user experience

Agencies currently using the Mobile Bridge Inspection Application will have a clear transition path to the next generation platform.

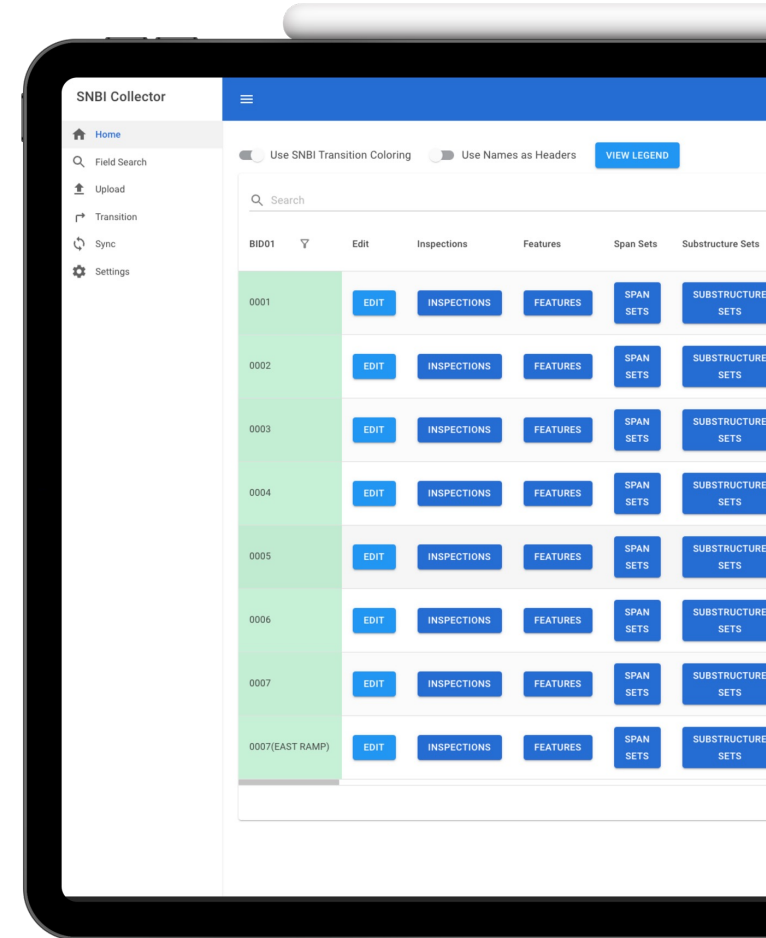

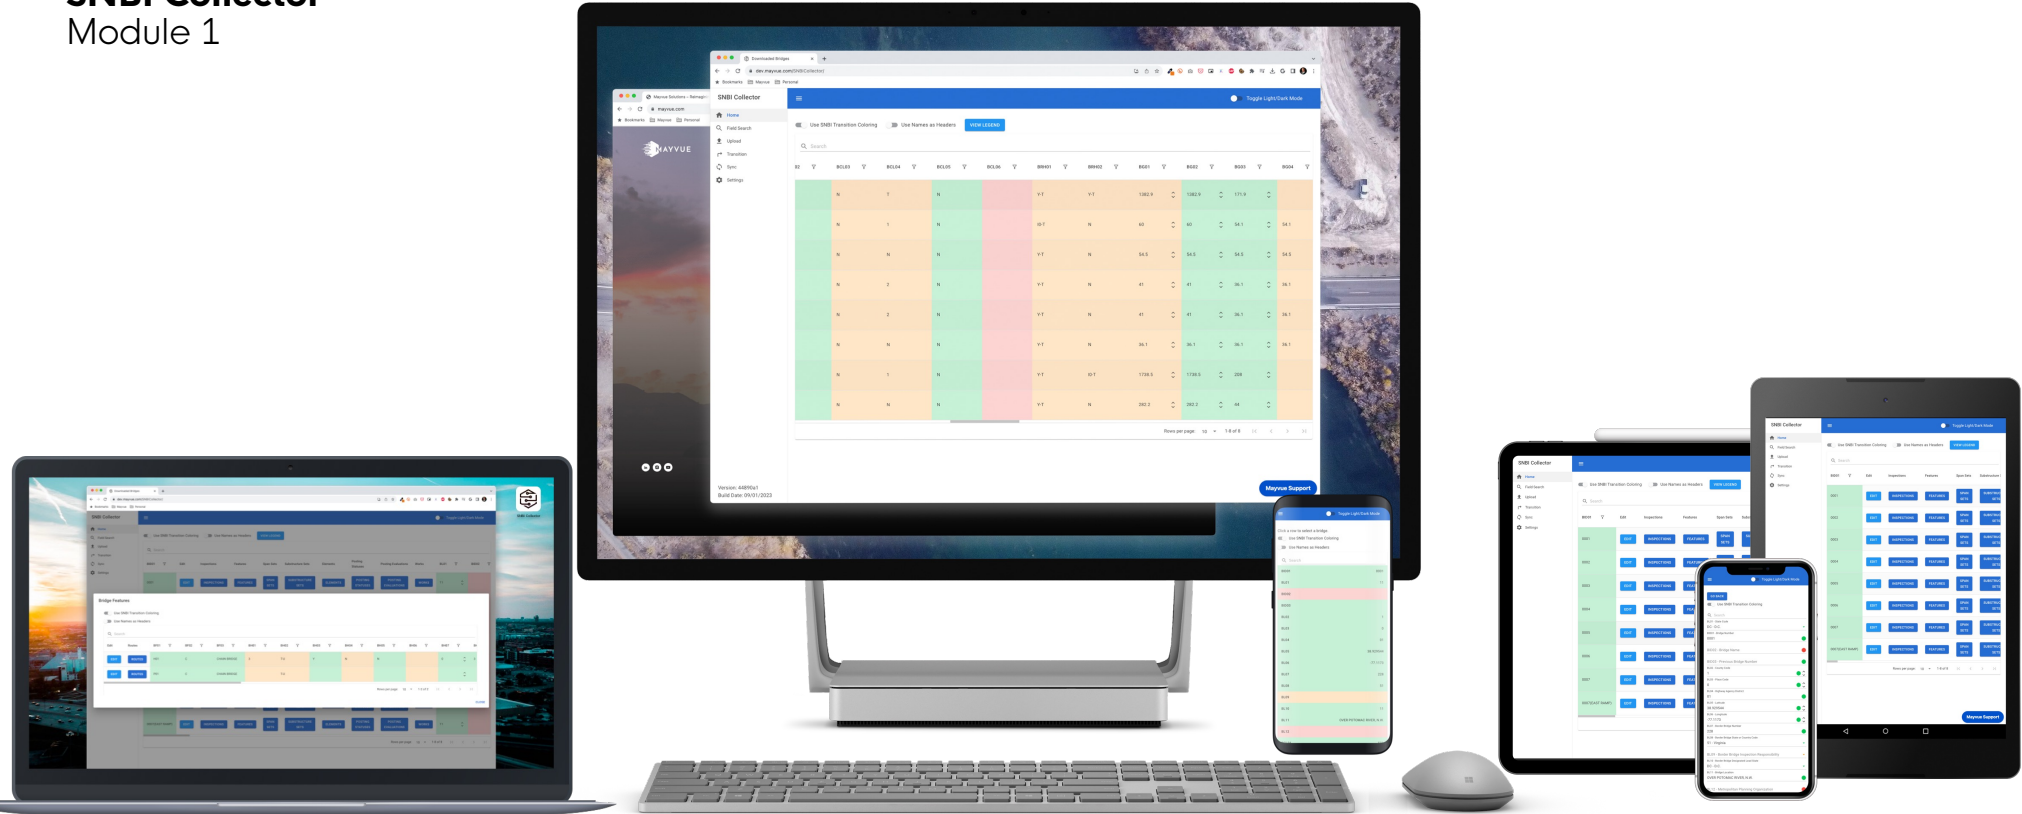

## SNBI Collector Module 1

Watch the SNBI Collector webinar to find out more about the features, but here are a just few:

Multiple ways to quickly identify and input data  
Instant updates if you have an internet connection. No App Store required  
It's designed to work across a wide array of devices. Use your phones and tablets for collecting data offline in the field and your laptop or desktop for back-office data entry

## Artificial Intelligence

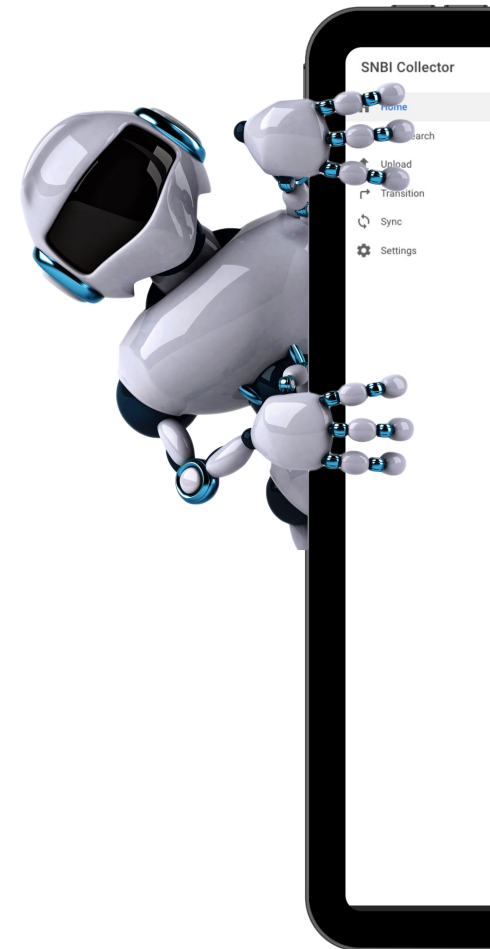

Chat with our AI SNBI Concierge

Command:

Is Border Bridge Designated Lead State required if the bridge is not a Border Bridge?

Response:

On page 40 of the SNBI, based on the information provided, the Border Bridge Designated Lead State is specifically related to bridges that cross borders between two or more states. If a bridge is not a border bridge, it would not require a Designated Lead State. However, please refer to the specific guidelines or regulations

## Artificial Intelligence

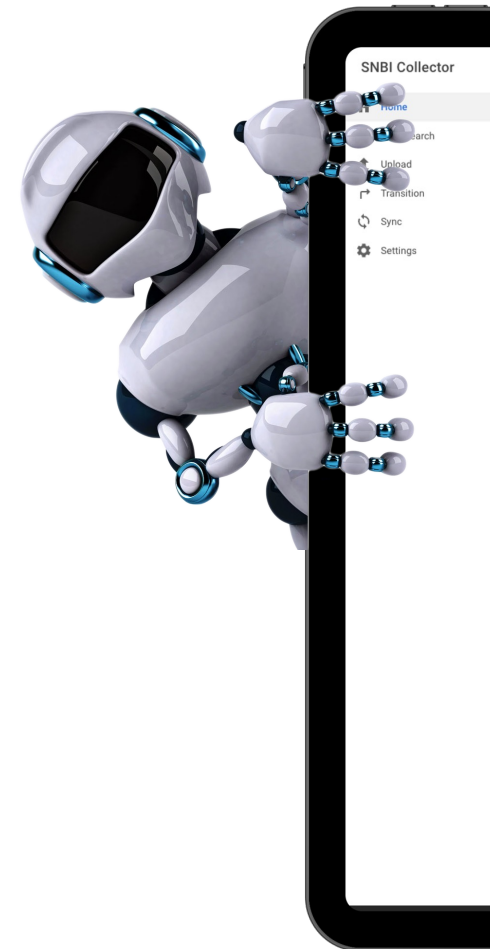

Chat with our AI SNBI Concierge

Command:

Find all my bridges in Washington County that are going to be in poor condition in the next 2 years.

Response:

<b>Total Bridges</b>	<b>30</b>
Ebenezer Covered Bridge	1
Brownsville Bridge	2
...
